

# SFT Gov't Money Market Net Asset Value

The information set forth below reflects the daily net asset value per share of the Fund based on a mark-to-market valuation of the underlying securities held by the Fund (the "Market Value NAV"). The Market Value NAV does not reflect the price at which an investor may transact in shares of the Fund, and the foregoing should not be considered an offer to purchase or sell shares of the Fund at such price. Pursuant to SEC rules, the Fund uses the amortized cost valuation method to value the Fund's shares for transactional purposes. Currently, the Fund's shares are purchased or sold at the price of \$1.00 per share.

The Market Value NAV is presented as of market close on the date stated.

The Market Value NAV should not be viewed as indicative of future Market Value NAVs or the future performance of the Fund.
